

Jose De Carvalho

Recycling Master!

Name:	Jose De Carvalho
Age:	38
My favourite memory from my time at St. Joseph's...	My favourite memory? That's difficult choice as there are so many to choose from, but it has to be running up the hill from Juniors to Infants to play football on the field and stopping the ball before it rolled down the hill after scoring a goal! I also remember the wooden staircase that you went down if you had been naughty and were being sent to the headteacher's office. Of course, I never went down it, promise 😊
My message for the children at St. Joseph's now...	Enjoy every minute of school life and always strive to be the best that you can be. You will have these memories for life.
What did I become?	Operations Manager for a Waste Disposal Company
